

THE PACKAGING  
CONNECTION INC.

## PACKAGING SOLUTIONS FOR MAXIMUM IMPACT

### CAPABILITIES STATEMENT

The Packaging Connection, Inc. holds 25 years of experience providing custom packaging solutions that meet the highest standards of quality, compliance, and reliability. Since 2000, we have designed, manufactured, and delivered packaging that protects valuable equipment, ensures regulatory compliance, and supports operational efficiency. Our team members have been with us an average of 15 or more years, reflecting our strong workplace culture and enabling deep in-house expertise in every project we undertake. With responsive customer service and a proven track record in fulfilling complex and time-sensitive orders, we offer customers a dependable resource for packaging—maintaining strict adherence to safety, environmental, and procurement requirements.

### CORE COMPETENCIES

Custom packaging and crating for fragile, high-value, heavy, and military equipment.

Precision-cut foam inserts, barrier bags, and protective packaging solutions.

- Supply of packaging accessories: desiccants, shock watches, humidity indicators.
- Mil-Spec crates with shock absorption, environmental sealing, security features (tamper-evident seals, locks, GPS tracking), and custom internal cushioning.
- Eco-friendly material sourcing and procurement.
- Quality control and compliance with industry and government standards.
- Warehousing, inventory management, and kitting services.
- Streamlined logistics planning for safe, and efficient transportation.
- Storage solutions optimized for long-term preservation, space efficiency, and rapid deployment readiness.

### Differentiators

- **Skilled & Certified Team:** Fully trained staff meeting regulatory standards.
- **Full-Service Management:** Complete packaging, logistics, and on-site support aligned with strict government timelines.
- **Advanced Protection:** Custom foam, barrier bags, vapor bags, heat treatment, desiccants, remote monitoring, and shock monitoring.
- **Local & Responsive:** Silicon Valley-based with statewide service and fast response capabilities. Close to Port of Oakland, and San Francisco, San Jose, and Oakland Airports.

### VARIOUS CLIENTS 2000 TO PRESENT

Over 25 years serving more than 5,000 customers, including Fortune 100 technology companies, museums, medical laboratories, and universities.

- Supported domestic and international shipments with advanced packaging designs and rigorous quality control.
- Managed projects ranging from \$250 to + \$9,500,000 in value, consistently ensuring damage-free delivery.
- **Fortune 100 Technology Companies – Ongoing**
- Delivered high-precision packaging for semiconductor, data storage, clean room, solar, drone, aviation, and telecommunications equipment.
- Integrated advanced foam fabrication, desiccants, and shock monitoring to protect mission-critical assets in transit.
- **Museums, Universities & Medical Laboratories – Ongoing**
- Provided specialized crating for artwork, research instruments, and medical devices.
- Customized packaging to meet preservation, security, and temperature-control requirements.

### Company Snapshot

Established: 2000

CAGE: 03J58

UEI: LR14FMR7PJE4

We accept credit/purchase cards  
Serving California and the Southwest

### NAICS Codes

321920: Wood Container and Pallet Manufacturing  
326111: Plastics Bag and Pouch Manufacturing  
488991: Packing and Crating  
424990: Other Miscellaneous Nondurable Goods Merchant Wholesalers

### UNSPSCs

24112701: Wood Pallets
